

THE NEIGHBOURHOOD PICARRAL

An aerial photograph of the New York City skyline at dusk or dawn. The Empire State Building is the most prominent feature, standing tall on the right side of the frame. The city is densely packed with various skyscrapers and buildings, their lights beginning to glow. The sky is a mix of soft orange and pale blue, suggesting the time is either early morning or late evening. The overall scene captures the vastness and architectural density of the city.
